**GururBrahma GururVishnu GururDevo Maheshwaraha**

**Guru Saakshaat ParaBrahma Tasmai Sri Gurave Namaha**

*Guru is Brahma, who is the Lord of Creation, Guru is Vishnu, Guru is the Maheshwara (Shiva or the destroyer). Since Guru leads to a path of light, Guru is that Para Brahma. We bow to that Guru.*

*Thus, as a realized soul, Guru is the embodiment of Para Brahma, the ultimate Godhead.*

## 1. Jithe Meher Teri Utthey Sada Khushiyān | Triloki Batra

Jai Guruji Sangatji. I will try to share my satsang (it's all Guruji's Leela) in short, as Guruji use to say "short wich dassi".

I am a blessed Sevadar at Guruji Edison Mandir. We used to live in GKII, New Delhi from 1991-1995 and then moved to New Jersey. I enjoyed the best of the best life with owning many properties and businesses with high income for approximately 15 years until 2010. In 2009-10, our business started to see downfall due to economic crash worldwide. We started losing real estates and businesses one by one.

Now, let me go back to year 2003, when I purchased this property where at present our Guruji Edison Mandir is situated, to give as a birthday present to my wife Ritu Aunty on July 4th, 2003. After all renovations in July 2007, I wanted to inaugurate this Mall on July 4th, 2007 (her birthday), but it could happen only on "07/07/2007" (Guruji's birthday) which only Guruji knew at that time.

Coming back to the economic crash in 2010, we survived for a couple of years and then in February 2014 we lost everything and received the 24 hours eviction notice from the Mall. After 24 hours eviction notice, we both were very much depressed and lost all hope and started making plans of moving out. Then the day happened that changed our lives as we saw Seema Aunty walking through the door. She was wearing Guruji's pendant which she showed to us and said, "don't worry Guruji will bless us". Just after looking at the Guruji's pendant everything changed, and the eviction notice converted back to the possession of the property.

It took us a few days to understand that it was all Guruji's Blessings. That's when Guruji planned the first Satsang at existing Ganapati ji's Mandir at the Mall on March 15th, 2014. Guruji gave dream darshan to Anil Johar uncle few days before the Satsang on March 15th 2014, that Edison Mandir is opening and it has the rear entrance and Satsang is going on and one child age of year and half is playing with Guruji, which happened to be true on Satsang day and child was my Grandson Yaj.

After that, there is no looking back and Guruji gave us signs and dream darshans that Guruji Edison Mandir was already blessed and destined before even it was even built.

Shukrana Guruji for all his Meher. We are grateful for this opportunity to share this blessing and serve the Guruparivar that he has built. Jai Guruji!

Triloki

## 2. Rakhi Charna De Kol | Neeta Sharma

This Satsang relates to an incident in which Neeta was squirming in pain and the sweat was pouring down her face. Neeta's mind flew back to one of many incidents back home, when her husband and son had, in similar circumstances rushed her to the hospital. Sirens of the ambulance were screaming on the roads of Manhattan. They didn't know whether it was her liver playing up or her heart.

She was immediately rushed to an Intensive Care Unit (ICU). After stabilizing her, an angiogram was performed where the doctors found a 65% blockage. The cardiologist requested a heart stent and had to leave to see another patient. The family and Neeta were still digesting the information and she had shut her eyes in denial. With her eyes shut, she saw a white presence filling the room. She knew Guruji was there, but she was curious to know in which form. She peeped from under her eyelids and saw a tall, doctor coming to the ICU and telling her cardiologist, "No need for stenting, just put her on medication. She will be fine. "Neeta immediately shut her eyes and a smile came on her lips. "I am saved yet again." "Shukrana Guruji!" she whispered.

Her family standing outside couldn't believe the reversal of the decision. Such incidents had already made them believers of Guruji. Another grace and presence of Guruji. Miracles had become a part of Neeta's life. She tried not to test her faith, but at the back of her mind, she knew that Guruji would do the needful.

Neeta had a pancreatic attack during the 2020 pandemic. Her blood count skyrocketed and the team at the Mt. Sinai Hospital, New York panicked. She was rushed into the ICU and put on life support system. The team prepared for an emergency surgery at 8 am. Everyone was ready; her son had been called by the hospital to get the urgent permission needed to proceed with the surgery. The last check up was at 5 am. Just before that, Neeta felt soft feathery hands on her forehead; the hands were holding her hands. She didn't have to open her eyes; she knew Guruji was standing beside her bed and smiling.

When she opened her eyes, she instead saw a bald doctor, who was the gastroenterologist operating on her. "Mrs. Sharma, your count has gone suddenly down and your CT scan is not showing any abnormalities." He was shaking his head in bewilderment and saying, "We don't need to operate anymore," he declared. Neeta smiled in response and asked him to inform her family. She was discharged on the third day and went back home.

Neeta fondly remembers another blessing as she remembers a request for a recipe of her kaali daal that she made at a langar in New Jersey. She was to prepare langar prasad for a *satsang* happening at Jersey City. The day saw heavy snowfall. While doing the preparations, Neeta suddenly noticed there wasn't enough cooking oil to make the prasad. She started panicking because the grocery store was far away and weather outside was terrible. But she started preparing the langar prasad absentmindedly for around 60 *sangat*. She poured oil from a

container left with few drops which was approximately 300-400 grams. Only when the langar was made, she realized that the container had oil still left in it.

She didn't know Guruji liked besan in his kada prasad. The first time when she tried to make kada prasad, she added besan in it. Early in 2021, one old *sangat* who was connected with Guruji during his physical form told her that Guruji used to always love kada prasad with besan. Neeta feels guided at every step and she can hear Guruji say "aur paa ya ghatt kar" as she prepares langar prasad for her monthly satsangs.

Neeta feels Guruji's presence every moment and everywhere she goes. His presence can always be felt with fragrance of roses and havan samagri. Guruji blessed his *sangat* at Neeta's Holi *satsang* in 2020 with *amrit varsha*. Many a time Guruji's swaroop at Neeta's home will show drops of *amrit varsha* and in just a few seconds, it will be all dry. One of the days she recalls she took out Guruji's chola and swaroops to give to *sangat* and when she returned back from Guruji's mandir, the entire chola and all the swaroops were drenched in Guruji's *amrit varsha*. During her recent visit to Delhi, she had to deal with the effects of the second wave of COVID-19. The city was under curfew. She made plans to go to Harmandir Sahib (Golden Temple) and Empire Estate with her precious *sangat* parivaar, but everything had to be put on hold due to travel restrictions. Her trip looked so dull without any moments of spiritual outings with Guruji. Just then flashed a message from a *sangat* from Mahindru darbar requesting if the *sangat* from New Jersey and she could visit the darbar on Baisakhi. Bypassing the protocol of not opening the darbar for anyone, Guruji made it possible for her to visit there and that too on Baisakhi day. The darbar had a heavenly fragrance; she felt as if Guruji were standing at the gate to welcome his beloved *sangat*. She was gifted Guru Nanakji's swaroop as if the Golden Temple had come to her since she couldn't go.

The most beautiful blessings were when the *sangat* from Mahindru darbar said she had instructions from Guruji to send a chola for Guruji's Edison Mandir. He wanted to bless the *sangat* there and she gave Neeta so many goodies to carry back. The moment of elation, thankfulness, gratitude and tears of happiness were flowing from her eyes as she savored the chai and mathi prasad thanking Guruji and *sangat* from Mahindru darbar from her core. The chola she gave looked so magnificent in the heavenly blue colors of our Neelkanth Shivji. These are direct blessings for the sangat at Guruji's Edison Mandir. Jai Guruji. Shukrana Guruji for showing us your presence at every point.

Neeta

### 3. Simar Simar Naam Tera | Shobha Rani

This satsang is of a very special person who the entire mandir calls “Naani”. The Guruparivar just celebrated her 96th birthday in the mandir and we are looking forward to many more! She was married in a family that were staunch Arya Samaji followed all the rituals – doing Sandhya every night and weekly Havan at the house every Sunday. However this never stopped Nani from following her own path. She would go for kirtans at Mandirs and Gurudwaras. She would do all the housework and dedicate her time to ensure that her children were well brought up and educated. All her children still look at her as the strongest pillar of the family.

She came to live in New Jersey, which she thinks was Guruji’s way of bringing her closer to Edison Mandir. Guruji’s sangat Parivar is like a magnet. Even when she is not feeling well or is in pain, her eyes light up just at the mention of going to Guruji. She doesn’t miss any opportunity to go to Edison Mandir and listen to shabads.

On a Monday evening in Feb 2018, after attending satsang at the Edison Mandir when she returned home to her daughter’s house she fell 13 steps down. But she got up like a hero and said she is ok. Her daughter and son in law offered to carry her upstairs to her room but she refused and went upstairs by herself. Next day the Dr. suggested to get her checked up. The checkup went fine. However, two days later she had acute pain and was unable to move. She was taken to the emergency and had to be admitted to the hospital. She was discharged from the hospital after 5 days and needed assistance for next 3 months. Due to her strong will power and faith in Guruji she bounced back and resumed her routine after 3 months.

She had another health scare when she had to undergo surgery for an ovarian cyst. Everyone was concerned on how she will withstand the complicated surgery at her age. She was nervous too but never showed it and had full faith in Guruji. Just as she was being taken in for surgery she got a strong whiff of Guruji’s fragrance. She knew instantly who her real doctor would be and hence had nothing to worry. Guruji was with her through the ordeal of the long surgery. She was released from the hospital two days later and she climbed the stairs to her room like a champ. She felt as if Guruji was pushing her from behind. This was a big blessing by Guruji.

Naani says “Kismet walon ko darshan miltey hain” and she is grateful to be in Guruji’s sharan. We all believe she is a blessing for us. For the sangat whose mothers or grand moms are not here look at her as their own and our hearts are so full of love for her! Thank you Guruji for having her between us!

Naani (Shobha Rani)

#### 4. Tu Mera Rakha Sabni thai |Suman Sood

In 2015 my husband had a life-threatening situation. On a routine checkup it was discovered he had stage four cancer and only had a few weeks to live. We panicked and went the traditional way of consulting all big hospitals like Robert Wood Johnson, NYU and Memorial Sloan Kettering in New York. The worst part of the situation was that no one could detect the origin of cancer. They all recommended surgery radiation and chemotherapy, but my daughter Monica who is a doctor herself - could not settle for any treatment until we knew where it came from. This was the hardest time of our life.

A few months later, we were in Iselin, NJ and visited Ritu Aunty and the newly established Guruji Mandir. We both bowed to the Lord Guruji, but never got connected. Ritu Aunty was nice enough to tell us that Guruji had invited us in for that visit. Since we did not know about Guruji at that time we were not ready to go to the temple on Thursday's or Sunday's. Then came the word from Chandan Aunty to visit the mandir, listen to shabads and eat the blessed langar. We started going half-heartedly. Uncle's condition got worse and we were very confused and did not know what to do, but Guruji's grace and blessings found us a hospital named CTCA in Philadelphia. After three days of testing, not only did they find the origin of cancer but also started treatment chemotherapy treatment. After two doses of chemotherapy, the doctor came to tell us the results as the whole family was waiting most anxiously. He told us that Uncle was cancer free and that in his 37 years of practice he had never seen such good results. He even asked if my daughter was doing anything behind his back. We all smiled and said JAI GURUJI, and immediately started coming to the mandir and never looked back. Our faith in Guruji became even stronger. Best of all, we received this news on July 7th, which is Guruji's birthday.

We decided to celebrate his recovery with a family trip to Jamaica. Prior to leaving, we went to Guruji's mandir to get His blessings and I left my shawl there. I called Ritu Aunty who said 'your imanat is here and you will get it when you get back. That was Guruji's plan.' The second day of our vacation, I had a problem with my breathing in the middle of the night. Uncle called my kids, and my daughter knew immediately that I was having a heart attack. I could not speak a word other than 'Guruji Guruji Guruji.' The ambulance came and Uncle started shabbads which Chandan Aunty had sent me on my phone. We had given clear instructions to the hospital staff to continue playing shabads no matter what the situation is. An hour later, I was declared dead due to Congestive Heart Failure. Crying out loud, my daughter came in and saw that I was not responding, and started rubbing my hands and screaming for me to come back: 'Mom come back! We can't live without you! Guruji please send my mom back!' I remember seeing a bright white light telling me to go back, somebody is crying for you. I squeezed my daughter's hand and opened my eyes. She asked me to say something to which I responded 'Guruji? Where is Guruji?' I felt the presence of Guruji all this time. Next when I was transported in an air ambulance to a Florida hospital and they did all the testing, the Doctor told my family that there is no need for surgery because I had no blockage or any other problem. The doctor was surprised by this whole episode. When the doctor gave us this news, we were playing Guruji's

bhajans - the specific bhajan that was playing was: Sanu Pata Badal Tu Sakda Hain Sade Mathe Dian Lakiran Nu.

At this stage my whole family, including my brother and sister have all started going to Guruji's mandir.

Ever since I got connected to Guruji, I have felt his presence in many aspects of my life. In 2019 we started to go to Chandan Aunty's house every Monday evening for satsang. One Monday morning I was preparing langar Prasad for that evening's satsang when a glass broke and pieces went into both of my eyes. Uncle rushed me to the Ophthalmologist nearby and with Guruji's grace, the doctor took me in immediately and removed the pieces from both eyes and told me that I was lucky that no damage was done which could have been retina detachment or even loss of vision. We did go to Chandan Aunty's house for satsang with prasad that evening. JAI GURUJI. Har pal shukrana Guruji.

As we all know, Guruji takes care of not only human beings, but also our beloved pets. We had a dog named Snowball who was 14, but was not feeling well for a few months. One morning, I had woken up and felt that he was not going to make it. I called my kids to come and see him, possibly for the last time. At that time I had fractured my knee and was using crutches. Raj Aunty had a satsang that night in her house and even though it was hard for me to walk, I decided to go so I can pray to Guruji that my dog does not suffer; please take care of him. I brought halwa and jal prasad for Snowball that night and hand fed him a little bit of both. He had not eaten that whole day, but he did eat the prasad. The next morning, not only was he walking around, he was drinking water and ate his food, and we were blessed to have him live another year!

JAI GURUJI. Lakh lakh shukrana Guruji

Suman

## 5. Jis Da Sahib Dadha Hoye | Gurudas Sarkar

My spiritual journey with Guruji Maharaj started around mid 2017 when our entire family lost all hopes of life and thought that prolong period of struggle would be never ending. Incidentally, I was an extremely successful and well accomplished professional before I decided to move to US. During almost 28 years, I have been in Technology business. However, after we moved to US, initial first 6-7 years have been phenomenal, but 2011 onwards, issues in our lives started getting accelerated and problems started coming in every facet of our lives. Went to Business School in US too. However, problems started holding me from back from all sides be it as Professional or Personal especially because of the most difficult immigration process prevailing in the US. My aunty and daughter were also in a kind of helpless situation as they could not pursue their own dreams as they got stuck being my dependents in this Country.

Around the same time, on the professional front, had been facing major issues regarding financial crisis in the business. At the same time, because of delays happening with my Green Card processing, my daughter also started facing hurdles. She started going to school for her undergraduate studies, even after high score in SAT, she could not even get the benefit of scholarship because of her immigration status. Additionally, even after being a decent Tax payer in NJ for almost 12 years, my daughter could not avail the In-State fees in NJ simply because I did not have Green Card. Precisely, nothing was working and there was no hope for survival coming out in the eminent future. Almost 8 years, we had been kind of captivated and could not travel out of the US. Lost several members within my family in India including my mother.

Around that time, one of my very close friends, Shweta Grover Aunty once advised me to go to Guruji's Darbar. She told me to come once and unless I like the atmosphere, it's up to me to continue my journey with Guruji. She briefly advised me about the protocols followed within Guruji's Darbar, for example, Chai Prasad is served which is a blessed prasad and not a simple chai; Langar Prasad is served which needs to be finished as it is also a blessed prasad and not a mere food. While I reached there for the first time, spent the entire 90 minutes listening to Shabad/Gurbani, had Chai and Langar Prasad. On the very first day, I could feel that after spending almost 100 minutes with Guruji Maharaj, my mind was peaceful. Since that day, I started going to Guruji's darbar almost every Sunday and never had to look back. Even though my problems on the professional and personal front continued to be accentuated but it was very clear that I started deriving some positive energies.

Meanwhile, tried to convince both my daughter and Aunty to come with me but both of them were not inclined to come. While I mentioned this to my friend, Shweta Aunty told me to keep Guruji's Swarup under the pillow of my daughter. Now, exactly after three months, one evening I got a call from daughter that she is interested to visit Guruji Edison Mandir, incidentally, it was a Thursday, as such, she attended the Satsang also. Firstly, it was kind 'love at first sight' with Guruji Maharaj. Gradually, she started telling me interesting things happening in her life too. Most importantly, one day she told me that while she was in the midst of deep meditation, she

could feel that somebody was keeping his hand on her head and giving a strong message that everything would be alright and that she had come to the right place. She continued to attend Thursday evening Satsand while I used to attend the Sunday Satsang. Two months later, my Aunty also started going to Guruji's Darbar along with my daughter every Thursday. Around that time, one day she was told by another Aunty that she should start coming to Amritvela also. However, when I came to know that Amritvela starts everyday around 4 am ET, I thought within myself that during my entire life I have never been able to get up so early in the morning, so it would be very difficult for me to go to the Mandir around that time. However, little did I know that Guruji's plan was something else. Following Sunday, another Sangat advised me that I should try to come to Amritvela. After making repeated attempts, on 1<sup>st</sup> January of 2018, we decided to go to Amritvela. Weather outside was freezing cold but somehow we managed to go there and attended Amritvela Satsang. That was the turning moment of our lives. Since that day, we don't remember that we have missed ever Amritvela unless I had to travel out of New Jersey on business travel. In a short while, my daughter also blessed with Seva. Jawa Uncle started teaching my daughter to make Kada Prasad for Amritvela. Within a couple of months, she started making Kada Prasad in the morning under supervision and guidance of Jawa Uncle. We realized that some positive changes started happening in our lives magically. We used to get messages from Guruji during Amritvela time indicating dates by which some of our problems would be resolved. And that was so unbelievable and so amazing ! Initially, we all thought it's some kind of illusion but gradually all one after another things have started falling in place exactly with the dates Guruji used to give us during Amritvela time. Financial problems in the business started getting resolved, we also found a light in the tunnel after almost 10/12 years of prolong struggle around the Green Cards and most interestingly, my daughter who lost all hopes in her life, got a direct job offer from one of the best financial services company in US and that too it was her dream job as Equity Trading Analyst.

Guruji started blessing me with Seva as well in the Edison Mandir in every possible areas. Around the same time, I started facing some issues in my job and Guruji blessed me magically. One of my very old friends approached me and offered to take over the role of CEO of their US Operations and interestingly, he also wanted to support some of the R&D/Research Projects conceived by me earlier.

In the meantime, my daughter went to California to start her dream job initially as Intern. However, she was not happy with the roles given to her. In any case, she had to come back to NJ to complete her final year at the Undergraduate School. And during this time, she was blessed by Guruji with another excellent job in the East Coast and that too at NYC with exactly the kind of roles that she was looking for.

Around September 2020, one day my daughter met with a serious accident. In a most busy highway, her car got hydroplaned and turned 360 degree and hit the siderail. It could be a most fatal accident and all her airbags got deployed but Gurujii saved her miraculously, not even slightest injury to her. When her car hit the siderail, she could not see anything as all the airbags got deployed but when she tried to find her wallet, she touched Guruji's Swarup.

Ever since we are connected with Guruji, our lives changed completely. Everyone within our family and friends always wonder about the mystery behind the secret of our happiness, peace, and tranquility. In this country, we never had any of our relatives but today we are so fortunate and blessed that we have our entire Guru Parivaar all around us. Guruji blessed us with brothers, sisters, sons, daughters and above all He himself gave us the strength as our Parents. Both my Aunty and I have lost of our Parents long back, today, we realize Guruji has filled those gaps in our lives. Like a child, He gives us everything before we even think of asking Him. We see miracles happening in Sangats' lives each day. Guruji Edison Mandir is our home and place of *Jannat*. It's more than heaven for us.

Lastly, when we look back and connect all the dots, it becomes very clear that Guruji has been holding our hands probably from the very day that we came to this World but He has got the remote control of lives & happiness.

Gurudas

## 6. Aise preet karo man merai | Shruti Arora

I was a mom to a 6-year-old when I was performing a dance performance at Guruji's birthday in mandir in the year 2018. After having many challenges with conceiving over the years, I was expecting and knew that it may not be safe, but I still gave my best shot at the dance. What happened post that was terrible. While the tests done for down-syndrome etc. were negative, the baby's heartbeat stopped and we lost the little one.

As I walked back in mandir half to question Guruji half to grieve, ritu aunty stopped me and asked me what was wrong. Just as we were talking jaya aunty came by and said "Shruti in today's amritvela I saw Guruji's hand on your shoulder". I burst out crying as HE always is there and sends reconfirmation through the Sangat angels HE chooses.

It was a tough period as my heart would break million pieces seeing any small baby, thinking my second baby would have been that old.

Once we walked into Disney park, the love and loss became even more emphasized as I looked around small babies in the stroller. But Guruji always gave me indication by showing me a "special needs child" perhaps conveying it was not the right time for us and HE wants a healthy baby for us. I surrendered fully to Guruji and got back to seva, satsang and simran.

In 2020 year due to the pandemic my travel time cut down to 0, I used to travel 2 hours each way for work. For 2020 Guruji's B'day Celebrations in July - Rita aunty called me and asked if I wanted to do the birthday performance as we would be recording only. I said yes and came to the mandir to do the recording. As I took agya and reached my car I saw 2 eclairs toffee next to my car. I was curious how they got there but took it as my Prasad and left. Shortly after I started feeling very tired and got thyroid tested and started taking medicine but it didn't help. I was back at Doctors office only to be informed I was pregnant ! Me and my uncle were elated with this news and couldn't believe Guruji had blessed us with this desire that our hearts yearned for.

" Agam Agochara tera ant na paya"

Excited but anxious also as I started the pregnancy journey, Guruji showed me a dream of two cats outside my house. On waking up I was super nervous and baffled by the dream. Everything made sense when I went for an ultrasound. We reached for the test and it was revealed to us that we were actually having twins !!!! Guruji is that why you gave me two eclairs?? Indeed it was as I found out soon enough. A few days later we were at a satsang where old sangat rano aunty was sharing satsang where she shared Guruji said to ger "chinta na kar teri pregnancy achi nikaleygi" and she also mentioned éclair toffees during her satsang. I was overjoyed on hearing this as Guruji kept reassuring me that " Tu chinta na kar, main tere naal haan".

As Guruji has assured my pregnancy was going smooth. One fine day i got a very strong thought that Guruji wants me to buy sports shoes for him and that day I logged in to hear Edison mandir satsang and renu aunty was sharing her satsang of her dream darshan and how Guruji gave her Adidas sports shoes ! As always he validates the thoughts atleast twice and I got my confirmation.

During my pregnancy, my mom was with me for initial months but she had to head back soon and we were banking on my inlaws coming back for delivery but their visa had expired given the pandemic they were not able to apply for extension. Guruji to the rescue again! My uncle was informed of an exception process of drop box option and they applied and got the visa within 3 weeks and reached here before my delivery March 1 2021.

We are now proud parents of Rithvik and our beautiful healthy twins Athaav and Meher. Everyday is a satsang, Guruji has blessed us beyond our imagination and big big shukrana to him everyday every moment of our lives. He's always "ang –sang".

Guruji our feelings for you cannot be put into words. You came in my life when I lost my father. Since then you have been there to take care of everything " Tu mera pita, tu hai mera maata"

Guruji, hum paapi tu paap khanadan.

Assi change maare tere, Guruji saanu baksho, assi kitte paap ghanere, saanu bakhsho.  
Will pen down by praying Guruji to bless everyone who comes at your darbaar.  
I know like ours, he has changed destiny of many others in front of u. I pray for him to bless everyone and hope everyone's deepest desires come true! Shukrana Guruji ! Jai Guruji!

Shruti

## 7. Tu Mera Pita Tu Hai Mera Mata Tu Mera Bandhap Tu Mera Bhrata | Renu Ahuja

I am 13 years old preparing for an inter school declamation contest. I rehearse my speech with dad and he gives a thumbs up, I wake up the day of the contest with excitement to compete but also a very high fever of 102 and intense stomach pain. A fauji kid is not raised to quit so make every ounce of effort from inside to get in the van and lie down with my head in my father's lap and somehow make it there. I don't recollect how I even stand and take the mic but I know my dad is in the audience and cheering me and I pull it off. I am called back to the stage as the winner of inter school competition and my first words are "dad hum jeet gai, we won"!!!! Guruji took over my Dad's role as my journey started with him decades later as I stepped foot in Edison Mandir on October 19<sup>th</sup> Diwali day in 2017. As I headed back after his first darshan in mandir I get a dream where I was in his darbar with my mom and brother and he said "kalyan kitta" ! Since then he has truly done kalyan in every area: material, emotional, physical and spiritual. And now every win weather it's a large deal, a new trophy or a promotion my first words always are "**GuruPa we won!!**

My first thought when I wake up is what shall we conquer today Gurupa! He has brought me to this completely surrendered state of mind step by step, playing different roles and showing his presence at every stage of life in last 5 years and yes I had to clear some hard tests....

### ***He's coach - Satguru Mai Teri Patang, hava vich utti javangi***

Sitting in his darbar I heard Chowdhary uncle how Guruji was against wearing any stone rings. I took that as a key message and took off a 10 carat neelam ring I was given to wear for work. What followed was not success but the opposite I started losing deals and facing losses at work. I took it as a test of faith and patience and stuck it out. After 3 months of continuous downturn I was sitting in akand path being done for Mahasamadhi divas and in that one moment of direct connection I said 'bus please ab test lena bund karo'. Such is his meher that I walked out of the mandir only to get a call from an executive that I had been promoted out of cycle against all odds. Post that, financially and in reputation he has catapulted the career with such force I am humbled and proud both at the same time...

### ***He's family doctor – Deen dayal bharosey terey***

A big blessing has been all my family coming into his sharan. Last year my sister and brother in law got covid in Pune and I didn't know anyone there, he sent his angel kochhar uncle out of the blue who managed to get them both in same hospital at a time when even beds were not available. He also got them jal Prasad and Swarup in the hospital. Guruji sent me a message through another sangat saying "sub theek ho jaiga" and the sangat had no idea what I was going through. Indeed all was well and they came out of hospital within 5 days. He has key all family safe and healthy.

### ***He's mother - Aisi lal tujh bin kaun karey***

Even when I open a box that was packed as chutney Prasad it turns out kada Prasad for me as he knows I was hoping for that. I have to think and sometimes not even that, as mom does so much laad and pampering. He shows his presence in many ways om darshan, his fragrance etc. He's blessed on many amazing darshans and satsangs at bade mandir, empire and dugri as well. He summoned me for Baisakhi and did his magic in a way that a parent calls child home on big functions. Not only my trip was cut short to only 4 days in india but it was only to celebrate Baisakhi 2019 in bade mandir. As I was walking out of mandir and thinking 'wish I could take Prasad home for mom', a sevadar came out of the blue and gave me a packed thali, it's not a norm and no one else was allowed to take home Prasad, he listens to every little wish. He called me again in midst of pandemic and in a time when getting epass was so tough he called me multiple times in bade mandir during my stay including changing an epass date to April 10<sup>th</sup> which was the last day before bade mandir closed down. He also got me back safely to jersey two days before flights were shut down, his planning is always impeccable and he has taught me to trust it!

### ***He's therapist - Mera vaid Guru Gobinda***

When I started attending satsangs I used to end up crying a lot and didn't know why. He has forgiven and cleansed the soul and done many internal surgeries. He has also made me a total chardi kala ka bunda mentally am tuned to seeing the positive side of everything that happens! So much so that as I walked away from a recent massive accident scratchless, I was grateful that the big hit from behind actually fixed my back that was hurting !

### ***He's brother – Sachi preet hum tum siyo jori***

So with some of the sangat we have kept a tradition now of bringing in Guruji's birthday July 6<sup>th</sup> night and doing all night satsang. Last year we did the same inspite of covid and sitting there I was thinking "ki chalo ab return gift toh dogey so pls give darshan". Timing is always his, he woke me July 24<sup>th</sup> from a beautiful dream darshan where I was at his charan and he said " main tera vadah brah haan" and gave me his adidas sports shoes and lot of flowers to take back. I switched on amritvela and the shabad that played was about how the sevadar never wanted to wear the jutties that babaji had given him so kept wearing his old shoes...he always double confirms his messages. To me, this is the biggest blessing so far 😊

### ***He's family –Ang sang wahey Guru***

He's gifted me with this beautiful guruparivaar. I had the good fortune to meet many old sangats and learnt a lot from them. I look forward to spending sundays with this family in seva and see his presence in all sangat family.

### ***Above all he's just pure love... Guru meri pooja....***

Ritu aunty saved my name in her phone as "Renu Matching" as she saw me always matching Guruji's chola color in the mandir. I feel the match and oneness with him every day and with every breath I do shukrana to him to make me feel one, wrapped in a connected bubble of continuous love and protection. Jai Guruji. Shukrana Guruji!

Renu

## 8. Tumhre Bhawan Mein Jyot Jaage | Rashmi Jawa

As I look at my daughter's photograph beaming and beautifully dressed as a bride in Guruji's mandir, I start to think how I got so fortunate to be here and witness this blessing of my daughter getting married in his darbar and how his bhavan's jyot has lit up all our lives...

Guruji says that in his Darbar nothing happens by coincidence, everything is by his invitation and his plans. Such is the story of my calling and connection with Guruji.

We were going through a low phase in life and had lost faith in faith itself and infact even stopped going to Mandirs. I remember talking to Ritu aunty around February 2014 and she mentioned that there is a "satsang" at someone's house in Edison where you just have to sit quietly and listen to shabads for 90 minutes. It's very peaceful and she we suggested both go. I was apprehensive about it as I didn't know the hosts. "How can I go to a stranger's house without being invited and eat food there"! I had never heard of such a thing where you get served Chai Prasad while listening to shabads and then langar prasad at the end. I told aunty that I don't feel comfortable so let's skip it. Little did I know that Ritu aunty was the messenger to connect me to Guruji and he called me yet again!

Soon after in March she mentioned that we are having satsang at the Mandir so please come and join. Since we are family, I said sure we will come and help in the langar prasad preparation. Around that time, I noticed that suddenly our friends from India were posting pictures of this bald man on facebook almost on a daily basis and I was wondering who this person is. When the Edison Mandir opened on March 15, 2014 and I saw the same picture I realized that this is Guruji's Swarup and he had given his darshan to me ahead of time.

That's how my journey started with Guruji in March 2014. We started going to Edison mandir regularly and would listen to the shabads as it felt very nice. I had not taken tea with milk or sugar for last so many years but enjoyed drinking chai prasad that was served at the mandir. I heard that Guruji blesses health first followed by blessings of family, wealth and rest in that order. I experienced his blessings first hand. I had a severe attack of Rheumatoid Arthritis which had impacted my bigger joints along with the small joints. My mobility was impacted, my fingers were swollen, the skin of my hands had become very dry/rough and would peel off, I was unable to bend my knees to sit on the floor. In June 2014 we went to mandir in the afternoon where few sangat were sitting and sharing their experiences. They asked me to join and sit with them. I hesitated as I couldn't sit on the floor. When I was asked again I thought let me try and to my disbelief I was able to bend my knees and sit on the floor. This was a miracle as I hadn't sat on the floor in over two years and here within three months of getting connected to Guruji I was able to sit down. I was emotional, and tears started rolling down my eyes. My family was overjoyed.

When the mandir had started the langar prasad sewa was shared and used to be made from home. I was so overwhelmed by Guruji's blessings that I also wanted to do some sewa. In my excitement I said that I will take 200 roti prasad sewa. My daughter was standing there and said mom are you crazy, you cannot make even one roti at home how will you make 100 roti prasad. I said I want to do it, let me try to make some. To everyone's surprise, with my uncle's help

together we made the roti prasad. That was Guriji's second blessing to me and he was curing me little by little. The swelling on my hands was going down, the skin had become softer and normal. I was still taking the medication but had stopped taking the steroids. My doctor was surprised to see my hands. She said what have you been doing? I said I have faith in my Guruji and he is healing me. She said continue what you are doing as it seems to be working.

Besides health, Guruji has bestowed many blessings on our family.

Our shukrana satsang in 2016 was super special, it was month of December and the weather turned so bad with snow and sleet we thought no sangat will be able come but let's proceed even if it's just family that will attend. My mother in law has a strong affiliation to Krishna and I asked Ritu if we could have krishna idol at the satsang and she advised not to do any veham and proceed with as the darbar was set up. Only remaining item was Ganesji's Swarup so we went and brought those from inside. Lo and behold....we see Krishna's flute in Ganeshji's murti!!! This is our Guruji..he fulfills every wish no matter how small of big. And that evening 88 sangats came to the satsang, the beautiful memories of that satsang are indelible in all our minds!

Guruji's pull was built slowly and strongly for my Uncle also and today he goes for amrtivela satsang without fail and has been blessed with the seva to make kada prasad every morning. Note only did Guruji restore our health he restored our faith in divinity and has showered us with so much love, security, peace and a very happy and positive outlook towards life.

Shukrana Guruji for your unconditional love and blessings!

Rashmi

## 9. Je Tu Na Faddah Meri Bahn Tey Mei Rul Jaana Si |Ashutosh Sharma Family

We came under Guruji's sharan in 2016. There have been many ups and downs during this journey, but Guruji has always been there for us. At the beginning of 2015 and 2016, my brother was diagnosed with cancer, all of us were worried would he survive. Guruji was helping Shivaansh with his battle with cancer. Everything was getting better, and he was able to return to college for a whole year.

In September of 2019, Shivaansh had his yearly CT and PT scan of the whole body at Memorial Sloan Kettering Cancer Hospital, and the scans showed a tumor had formed in the brain. Doctors said we need to do traditional therapy. They scheduled it for next week, and a couple of days later, I came back home, and Shivaansh was in his room; then, suddenly, he was having severe pain in the head and was throwing up. Then I took him to the hospital and informed mom that we were at the hospital, and she left work and came there. Doctors were saying we have to do another CT scan. We went downstairs, and mom saw a person at the front of the door. She said, are you the CT Scan operator and the person said no. I am one of the heads of the Neurology department. I am going to do his CT scan. The doctor said that there is some bleeding that has occurred from the tumor. We will have to do surgery. We both were scared for Shivaansh, and mom gave the Jewish doctor Guruji locket and told him to pray. He took Guruji's locket and put it on his wrist.

We were at the hospital the whole night and were praying to Guruji. In the morning, the Neuro team came by to discuss the surgery. The head of the neuro team told us that this would not be a successful operation, and Shivaansh could very well die in operation. How can you say this? The doctor said I have been doing this job for 25 years, plus I know my results. He said he would go with the operation but said we would need a miracle. Both of us were scared. I thought that my brother was gone; mom was telling Guruji to save Shivaansh. Nurses and some of the Neuro team doctors, including the Jewish one, were emotional. So mom also gave the main Neuro doctor Guruji locket and said keep this with you during the surgery. The doctor said I will. We both were waiting, and mom informed a couple of Mahanttan Sangat what was going on. Guruji was always with us, and we didn't realize that there was also a Mahanttan Sangat that also worked at the hospital, and she found out about Shivaansh and came downstairs. She was also praying with us, and after a few hours, the surgery was completed. The head of the neuro team came out and said the surgery was successful. He was shocked and happy also, and he said, your Guruji saved him, and he said, I wish I had this locket with me for the past 25 years; this would have helped me. I was able to talk to the Jewish doctor as well, and he said this was a miracle, and he felt some energy that he never felt in his life. He kept the Guruji locket with him and kept wearing it.

Shivaansh was getting better, and he told me to come on the weekend and stay with him, so I did; we watched movies and then fell asleep. During the night, I woke up several times. I would

see this huge figure next to the chair. But I said to myself, Ashutosh go to sleep, then I woke up again, and that same figure was still there and was leaving the room. It was walking so smoothly, and I thought it might have been a nurse or mom. But it was 4 in the morning and there weren't any nurses at the desk. There was nobody in the main hall. When coming back, there was a lemonish fragrance next to the chair. What I realized was that Guruji was in the room the whole night. Thankfully Shivaansh was fully recovering and getting better. But Later on, in 2020, the tumor came back in the brain, and doctors weren't sure what more we could do. They were now saying he's in god's hand now. Shivaansh said to the doctors; you haven't saved me; my Guruji has saved me. A couple of days later, in the hospital, Shivaansh called me and said Ashu, I had a dream/nightmare. I said what happened. He said, "I saw death; there were both of them and they were looking for me. I was running from them, and I was screaming out, Guruji, where are you, lord shiva, where are you. When I said this, both deaths looked at one another and ran away." I said, that's good they ran away; they found out your Guruji disciple who's lord shiva, and they ran away because they got scared.

On May 31, 2020, the doctors called us in the morning and said Shivaansh had lost memory; he doesn't know where he is. We immediately got to the hospital; his condition was worse. Doctors were saying he would not survive and he could very well die in the coming days. Mom told a couple of Sangat, and both came in the afternoon; both were sad, and the doctor's opinion made it worse. Mom was telling Shivaansh say Jai Guruji Shivaansh said Mahasamadhi din ki Jai. Later on in the day, an old Sangat connected to Guruji since the 90s and met Guruji, got our number, and Guruji told him everything. The uncle told mom that it's time to move on from Shivaansh Guruji, saying his journey is completed. Then he said Guruji had given him life five times. He can't give him more; it's not good for him. I looked back and realized there were five times where Shivaansh could have died. Guruji was telling uncle that Shivaansh is Lord shiva and Guru Nanak dev Ji disciple. He is a blessed soul and has always been a Guruji disciple. Guruji told uncle about dad, and uncle was telling mom that Sanjeev didn't take care of his sugar. If he took more care of it, he could have lived another 15 year or more. The uncle said, your dad wears brand name suits, and I said, uncle, how do you know all of this? He replied by saying, who do you think is telling me all of this? It was Guruji. We told uncle to tell Guruji to save Shivaansh, but uncle said it was not good for him, and uncle was even crying. He was sad that Shivaansh has gone through so much suffering. Later that night, I was meditating in front of Guruji, and Guruji showed me Shivaansh on a bed in a dark place, and I was scared for Shivaansh. Then Guruji comes and puts his hand out, and Shivaansh holds his hand and gets up and starts running, and then the sun starts to rise. I have realized from that dream that the dark place was the earth, which was not good for him. Guruji wanted to take him to his kingdom.

On June 8, 2020, Shivaansh Passed away in the hospital. There was so much rose fragrance. When the sevadars came in, they all prayed because Guruji was in the room. Many of us were crying, and we all went back home and went to sleep that night, and I had dream and I was in this huge white hall so beautiful and peaceful I see Shivaanah in a shewani and giving me a gift, and Guruji is behind him Smiling. I knew Shivaansh was in a better place. Later that summer, I wanted to go to Guruji Edison Mandir. We weren't sure how we could go because we didn't drive, and a pandemic is happening. We got in contact with Renu Aunty, who goes to Edison

mandir. She said, come to Jersey City. I will take you from there, and we did, and we got there four hours before Satsang and Just sat in the Mandir, it was so peaceful, and I felt Guruji's presence in the Mandir. We were blessed to do satsang the same day at mandir. After going to Edison Mandir several times, we decided to move to long island, so we sold our house in Queens. There was some delay with the Mortgage; we had to stay at a motel and friends. In total, we were outside for 16 days. With Guruji, the blessing mortgage was finalized, and we moved into our new home in long island. The Old Sangat uncle called us after five-six months to congratulate us on our new home. He said the lawn is huge. Guruji is thrilled, and mom asks uncle is Shivaansh happy, and Guruji tells uncle that Shivaansh is very happy. I am so thankful that Guruji has come into our lives and has protected us. Jai Guruji Shukurna Guruji

Ashutosh

## 10. Kar Kirpaa Mehra De Saiyaan |Shubhra & Ashish Bhatia

Our son's Wedding – August 2, 2020

Last year during COVID, our son, surprised us with the news that he and his fiancé had decided to prepone their wedding plans and would like to get married in 2020. Though we supported their decision, we were also worried about how we would make it work during the lockdown. They started looking online for an appointment to apply for the marriage license, but their attempts to secure a time slot were in vain. Nothing was available for next few months. My uncle and I told them to keep trying and leave everything to Guruji.

On July 3rd late at night, our son checked the portal again, as he said, "I felt as if someone was urging me to log in immediately." He found an open morning slot on July 7th to e-meet with the court clerk. That was their first blessing from Guruji, that too on Guruji's birthday.

We all wanted a small religious ceremony along with the registered wedding to honor both families' cultures. As we were in the middle of a pandemic, nothing was open, and no venue was available. Our backyard was also not an option as my mom, the matriarch of our family said, "We cannot bring the *doli* in the same house where the wedding rituals will take place". One evening, on our way to the temple, my uncle said, "Let's check if we can have the wedding in Guruji's mandir", and while I was skeptical about whether weddings are held there, we decided there was no harm in asking. When we very hesitantly asked Batra uncle, he replied "Guruji wants this that is why this thought came to your mind. Guruji has already blessed their wedding, who am I to say anything." Guruji again came to help us and bless the kids!

We all decided on Sunday, August 2nd as the date to solemnize the Indian wedding. Although we were very happy that our son was getting married and we were welcoming a new member of the family, we were also equally stressed, and overwhelmed to organize a wedding in a pandemic. Shopping malls were closed, we had to make sure that CDC guidelines were followed for safety, guest control was in effect; international/US borders were closed, so the fact that our family and friends would not be able to attend was also dampening our spirits.

With Guruji's blessing and kripa, the temple sangat and sewadars stepped in to fill that void. They worked tirelessly behind the scenes to make the wedding a success and were with us every step of the way from inception of the idea to its execution in the most perfect way – decorations, wedding outfits, menu for refreshments, langar prasad preparation etc. everything was taken care of. Both children got best wishes and blessings of Guruji and a much bigger family – Our Guru Parivar.

### **My Surgery: August 15, 2019**

My shoulder surgery was scheduled on Raksha Bandhan day in 2019. I requested my uncle to take me for Guruji's darshan before going to the hospital as I was quite anxious and nervous. At the temple, few sangat were sitting in the darbar and celebrating Rakhi with Guruji. After paying our respects, when we were leaving, a sewadar uncle walked up to me and asked if I had taken chai prasad. I informed him that as I had a major surgery scheduled in an hour, I must be fasting. Then, he asked me if I had Guruji's swarup with me, and I replied that I was not carrying it with me. He asked me to wait while he brought me a swarup and jal prasad.

We went and sat in the back of the darbar. While waiting, I saw an uncle walk into the hall and

stand by Guruji's aasan. He seemed to be looking for someone specific. After few minutes he walked to the back and stood in front of me with both arms extended, fists closed. He opened his palm and said "yeh aapke liye hai, khaa lo". When I looked, he was holding 2 samosas and 3-4 pakoras in his hands. Then he got chai prasad and asked me to finish it all. He looked at me, smiled and walked away. Considering it Guruji's hukum, I ate everything. Uncle gave me Guruji's swarup and said, "Don't worry, everything will be fine".

I carried the swarup with me when I was wheeled into the operation theater. My surgery was successful. There were no side effects of anesthesia even though I got it on a full stomach, after consuming samosas, pakoras and chai prasad! Recovery and healing were also very quick as my Guruji had blessed me.

#### **Our daughter's career:**

Our daughter experience at both jobs after college was not very pleasant, which took a toll on her health and self-confidence. Going to the office everyday was an ordeal for her, and she quietly suffered for about a year and a half. One day she came back from work exceptionally hassled and we kept Guruji's swarup in her room and told her to talk to him. A few mornings later, on her walk to take the bus for work, she twisted her foot and fractured her ankle. She was advised complete bed rest for 8-12 weeks and had to take a leave of absence. Guruji listened to her plea and made sure that she did not have to go to work!

When she was ready to join back, the pandemic started, and she was laid off which was a blessing in disguise as she got an opportunity to introspect and think about her future. She decided to study further and applied for master's program in 5 schools. She was very anxious and nervous while she waited to hear back from them. Guruji blessed her again and she got accepted to all schools with scholarships. A true testament to who was behind this blessing, she even received her confirmation of enrollment at the university she chose on a Sunday, a satsang day!

Guruji shukrana for your mercy, forgiveness, protection, guidance, unlimited and unconditional love, and for your immense and countless blessings. Jai Guruji.

Shubhra & Ashish

## 11. Jhim Jhim Varsey Amrit Dhara | Uma Chaudhary

We connected to Guruji in 2010. We were not looking, but Guruji wanted to bless us. So, through one friend in Kuwait we were introduced to our Guruji. Those days there was no satsang in NJ, at-all so we used to go to Brooklyn two and half hours from our home every Saturday. After two months that family moved to NJ just 15 min away from our home, that is how Satsang started in NJ in 2010.

We did satsang at our home for first time on April 21, 2012, and same year we had the good fortune of hosting Guruji's Birthday at our home in our backyard. Since there were no swaroops available, I framed a calendar photo of Guruji in red dress and bought a Jhoola like we saw in Bade Mandir.

For that Birthday satsang, sangat came from all over the tristate area, and about 120 people joined for perfect celebration.

We have been fortunate that Guruji calls us twice a week to Edison mandir and also gave me the opportunity to do bartan seva. I find peace and answers to all my questions with the shabads, and the divine Prasad that has blessed all our family.

Guruji has blessed us immensely, I will share two satsangs

- 1) Health: Doctor found a lump in my left breast. Guruji came in my dream as white light in a doctor's outfit and he asked me if he can touch me. I said it will hurt and he said no it will not. And, surely, he cured me in my dream.
- 2) Marriage: In another dream, Guruji came to my family room sitting on charpai. I sat on the floor and Guruji asked if I wanted to ask anything since I use to go to astrologers. I pretended that I wanted to ask nothing Guruji, then he laughed loudly said "Ab kuch nahin poochna?" Then, I asked about my daughter's marriage and Guruji flashed twice a long calendar in front of me which had 2020 written on it. That did not made sense that time to me in year 2012. Last year in 2020 with Guruji's grace both my kids got married in our backyard same place where we had Guruji's Birthday celebrations in 2012. Guruji laid the groundwork eight years ago for the two auspicious weddings. We are indebted of our lovely humble Guruji forever.

Before the pandemic, in March 2020, I was sitting in Edison Temple meditating downstairs hall in front of Shivji's statue. Guruji showed me yellow packets in a parat. Later when I was preparing the gift potli for my daughter's haldi ceremony on Aug 21,2020, I realized Guruji gave me a glimpse of that already in Mandir. Guruji is all merciful and full of compassion. He gives you signs and always shows his presence when you need him. Guruji is Antaryami Mahashiv, he knows ALL. Just pure love, surrender, and no logic is needed to win his grace. Shukrana Guruji.

Uma

## 12. Gurudev Mata Gurudev Pita Gurudev Swami Parameswara | Rajiv & Priyanka Singh

It is our immense good fortune that Guruji has accepted us in His loving shelter. We are infinitely thankful to Guruji for guiding us through all our past lives and our present human existence toward an ultimate future that is blissful beyond our imagination.

I am also eternally thankful to my parents who first brought me to Guruji's darbar. I still have memories of that day in Jalandhar Mandir, sometime in 1993, when my father took me to Guruji. As a young boy, I was both somewhat irreverent and curious to see who this Guruji was who fed Chai to His devotees. I had told my mother before leaving home that since I didn't use to drink tea then, not to expect me to break the rule at Guruji's. However, as Guruji came into the darbar, His powerful aura and loving glance melted away my resistance. I soon found myself having Chai Prasad and listening to Guruji converse with my father, with Gurbani playing in the background. Little did I know that 25 years later, in April 2018, I will find myself in a very similar environs at a place called The Mall at Oaktree in Edison, NJ.

I will come back to that "re-union" with Guruji in Edison, but let me first share some satsangs on behalf of my parents. They were introduced to Guruji in Jalandhar by a family friend, and in the very first meeting Guruji uttered the magic words, "Kalyan Kitta," to my father. Guruji's ways are only known to Him, we can only surmise that one is fortunate to be summoned by Him for His grace at the right time.

Guruji's darbar soon became the daily resort for my parents, they longed to get there every day to the exclusion of any other social activity. During a short period of time they had numerous experiences that Guruji's sangat is now familiar with. Guruji would usually make my father sit at His feet and would constantly joke with him, while my mother sat at a distance looking at Guru Nanak's Swaroop behind Guruji, since she was fearful of gazing directly at Guruji, often listening to the soulful bhajan "Swasaan di mala naal simroon main tera Naam" which used to be played regularly those days. My father's name was Krishan Pal Singh and Guruji called him "KP". Once Guruji asked the sangat to get ready to accompany Him to a dinner outside. After He changed his robes and came back into the darbar, Guruji was wearing white shirt, white pants and white shoes with an amazing fragrance around Him. My father found himself awestruck at this appearance. Guruji looked at him with a smile and said in clear English, "What are you looking at KP? I am a modern Guru!" Modern Guru indeed He is, with such simple instructions to solve our complicated contemporary issues, whether they relate to health, relationships or material pursuits – one just needs to connect with Him and He makes the rest easy.

My mother got the "operation theater" treatment with a spoon from Guruji, after she was brought there with extreme pain caused by a slipped disc in her vertebrae. After His unique treatment, Guruji commanded my mother to stand up and she was incredulous that Guruji would expect her to stand when she could not even move a few minutes ago. Anyway, after another command she found to her surprise that the pain was gone and that she could not only

stand up but walk around as if nothing had been wrong. While this was one experience relating to physical injury, Guruji has similarly helped us to get up and be strongly back on our feet when we had stumbles in many other aspects of our lives - our loving Father is always protecting and taking care of us, even if we sometimes fail to recognize and be thankful for it. After this incident, Guruji asked my mother to read Shiv Puran. He even suggested where to get it from and blessed the volume which she is still fortunate to have. Once my parents shared with Guruji that my sister had interviewed for a job that she liked a lot but had not heard back for a long time. Guruji said go home, she will get it. While my parents were happy at Guruji's assurance, they were shocked when they reached home and in the mail was the appointment letter for my sister.

On July 7, 1994 my parents attended Guruji's birthday celebrations in Jalandhar, days before their move to Lucknow which was made possible by Guruji only. That was the last day they saw Him in His physical form. He showered them with a lot of love that day and gave them His Swaroops which I discovered recently. Meanwhile, as Guruji had predicted, I moved to the US and with no physical connection, Guruji made Himself fade from our memory for 25 years while He was still blessing and protecting us in ways unbeknown to us.

Guruji has blessed us with three children. Our first child, our daughter, was born on the divine date of July 7 and He brought our elder son back to life after he spent two weeks in induced coma while he was less than one month old. Our son had liquid aspiration in his lungs which my wife was not even aware of, but somehow Guruji made her go to the hospital in time. He was fortunate to be airlifted from there to a specialty medical center and reached there within seconds before it could have been fatal. For days it was touch and go on his chances for survival. Even after he made it with our Maha Shiv's grace, the doctor told us that while it was a miracle that he recovered, his lung capacity would be compromised and we should not expect him to play sports etc. as he grows up. With Guruji's grace none of that has happened and our son participates competitively in the most strenuous of sports now as a teenager.

Finally, coming back to the re-union in Edison, it is said that while Guru is always there for us, he lets us "find" him when we need it the most. In 2018 while we were going through multi-faceted challenges in our family, at our daughter's insistence we came to Edison to shop for an ethnic designer dress for her prom. We found ourselves at the Mall at Oaktree and as we entered from the rear, I was so surprised and excited to discover a shrine for our "Jalandhar wale Guruji" there. We decided to come back in a week and attended a Sunday satsang. It was life changing experience. My wife had recently lost her father, a deeply impactful loss for her. During the satsang she found complete solace, with Guruji sending a clear message to her that her father was with Him and happy. Tears flowed, heart became joyful and mind achieved stillness like never before - it was a true homecoming for us. Since then we have found so much belonging and joy in Guruji's sangat, satsangs, and shabads that we now need no other pursuit. We just ask Guruji to make us do whatever it takes to continue to receive His infinite divine love and blessings. Anantam Shukrana Guruji.

Rajiv and Priyanka

### 13. Charan kamal tere dhoye dhoye pivaa | Sonia Singh

I own a Salon and boutique in PA. I have faced tons of problems and struggled a lo but the almighty he has brought me out of every tough situation and showered me with his blessings.

In the year 2017, my niece visited me from Delhi and introduced me to Guruji. My brother had sent me Guruji ka jal prasad and copper tumbler with her. From then on, I started drinking jal prasad daily from that tumbler. Drinking water in copper vessel never suited me earlier, but with Guruji's jal prasad I have never had any acidity problem. My niece googled Guruji's mandir in New Jersey and within an hour we all reached the mandir. While coming to the mandir, I had many questions like, "why I am going to this mandir and what will I do there." But as soon as I entered, I felt a different vibe and got all my answers in the shabad that was playing in the mandir. After that first visit, I started going to mandir on the given days when there was Satsang organized.

Guruji always knows about my all problems and he always stands by me like my father. I am the child who cries in front of him when I am down and laugh with him when I am happy. Guruji has always protected me from bad Karma.

In October 2019, a thief broke into my salon at 2-30 am. He smoothly went inside by opening the main door with some sort of master key and within 15-20 seconds he came out and left from there. I saw him going inside on my CCTV, but my camera didn't show me any movement inside. I have a big Swaroop of Guruji in my salon and I always say while closing "Guruji I am going home now, you have to take care of my salon". I believe that night he took care of my salon.

In October 2020, I was diagnosed with a tumor in my right foot. I was disheartened as at that time I was alone and my family, who are back in India, were not able to come due to the pandemic. Doctors told me that they will have to amputate my leg up to my calf as tumor can reoccur again. I was distraught after knowing this possible outcome. I prayed to Guruji and asked for guidance in clarity of my thoughts. I prayed to Guruji to let whatever is good for me happen and also to give me strength for such a big step. After visiting the doctor for couple of months, I made my mind to remove my leg. The surgery was finalized for December 17, 2020. However, 2-3 days prior to my surgery, doctor told me that there is no need to amputate my leg. I started crying in front of my doctor as this was a miracle, that had happened due to blessing of Guruji. I went to mandir just before my surgery. As Guruji says that I am always around you, you just have to notice it. One of my customers, a friend's daughter (Jessica), helped me a lot after my surgery. She took me to her place and I stayed with her for 5 days as no one from my family could come during that time. She made every possible thing easy for me at that time. She took care of me and my pet. She took me to the doctor for required visits and took days off from work for this. I always wish her good health and success in life. My surgery

went smoothly, leg was saved and I was discharged in a few hours on very same day. I was semi-conscious for next 4-5 days but I kept praying to Guruji whenever I was conscious.

Within a month I was fully recovered. I started going to my salon and visited Guruji mandir for doing shukarana. I had totally lost hope earlier, but it was the uncles and auntys in Guruji's sangat who encouraged me and sent me langar prasad whenever anyone visited from Philadelphia.

I always wanted to own a house since I got separated from my husband and I used to pray daily to Guruji about this desire. On my birthday, which falls on March 15, I got a beautiful key chain and I used to say to Guruji, "I have got the key ring, now you have to get me the house keys in it." Sure enough, on June 3, Guruji gifted me a house, and the whole process went smoothly. The day I got my keys, first thing I did was to take Guruji to my new house and made him sit on a shelf from where he can keep an eye on everyone. I went to mandir and kept the house keys and papers in Guruji's charan, took his blessings and shared a satsang at the mandir about my journey. I was happy from inside but I was crying while doing satsang, Guruji made all my wishes come true!!!!

I pray that Guruji always showers his blessings on me till I take my last breath. Jai Guruji, Lakh Lakh Shukrana Guruji.

Sonia

## 14. Jo Mange Thakur Apney Tey Soi Soi Devey | Mehak Jaggia

How do you do Shukrana to the power that saves your mother's life, blesses you with your heart's wish and cures you from the incurable, and on top of it fulfills every little wish you have! I don't even know where to start. It was a trip to India in December 2018 that changed my life forever. As I walked into my home in Agra and saw Guruji's swaroop my instant reaction to mummy and Bhabhi was 'kya yaar aap log bhi Guru logo me aagaye' (I feel foolish when I look back but there was so much to learn ahead of me). I know he called me even before I knew I needed him.

Two days post this discussion my mom became seriously ill and I felt hopeless about what was happening. Mom merely said beta go to Guruji's satsang and get me jal prasad. Losing no time I walked into Agra temple and was promptly given chai and pakoda Prasad. This first ever chai prasad and langar prasad was a complete life changer for me. My mom had jal prasad regularly and within few days she became absolutely fine!

I came back to US and deep in my mind I was always thinking about Agra satsang and suddenly one day while doing my regular puja it felt like a power from above called me, I took my mobile and searched for Guruji satsang in NY. I joined Manhattan satsang group and started going for satsang every Thursday! I thank all the sevadars who host these weekly satsangs. My belief was getting stronger and the power above bestowing blessings on me. Satsang and langar prasad was becoming my daily dose of power and positivity!

My next series of blessings started as I walked into Edison mandir for Guruji's birthday celebrations in 2019. I had been trying but I was not able to conceive but this time something felt different. All the langar prasad that I had definitely fixed things inside which I didn't even knew as problems. Two days after Guruji's birthday, my pregnancy was confirmed! I am forever indebted to Guruji for giving me this angel as my precious blessing. He also gave me a positive attitude to life and orientation of gratitude for all things big or small!

My life was going amazingly and I was on a super high but suddenly after my daughter's birth I was diagnosed with a very rare auto immune disease (which is deemed incurable). Symptoms were getting bad day by day and I was not even able to speak more than 5 minutes sometimes I would choke. The feeling was terrible when I was not able to even smile or swallow food. I had a 4 month old daughter and this disease was making me weaker. I cried for hours and losing all hope. However, behind the scenes, Guruji was putting his plan for me in place and was making the Guru Pariwar stand strongly with me. Renu aunty became my beautiful angel from Guruji. She introduced me to Dr. Karnika Kapoor who is again a Guruji sent angel. Dr. Karnika went above and beyond for me and helped me as a sister and gave references for other doctors. My faith in Guruji turned infinite, I was getting appointments of Neurologists in days which usually take weeks or months (always got appointment on Monday or Thursday). My medical treatment started in a couple of days after diagnosis and this was no less than a miracle. Meanwhile Guruji was working on the real treatment, Renu aunty brought me my medicine in

form of langar prasad from mandir every Sunday and it healed me from inside and outside. This month marks one year of my disease diagnosis and I am almost back to my normal life! Some days it's bad again but I have faith now that he is always there and will do whatever is best :)

Shukrana to all sevadars who came in my life who connected me, who made the langar and brought me the blessings. Lakh lakh Shukrana Guruji for sending them and for everything!

Mehak

## 15. Lakh Khushiyan Patshahian | Renu Monga

“Tussi fir koi babey-vabey dey chakkar wich pad gai ho” said my husband 4 years back, as I told him I wanted to go to Edison mandir based on my mother in law’s recommendation. Little did he or I know that time how this Baba was none other than the Ultimate God himself!

When I entered his darbar for the first time “Lakh khushiya patshahian” was playing and Guruji has made that as the theme song of our lives. He has blessed us with so much happiness. I sat there had chai Prasad and then langar Prasad and felt instantly at peace with an overwhelming positive vibe. I kept looking for a “gulak” but couldn’t see it anywhere, everything was so simple and so beautiful. Such was the pull that I came back the following Sunday and kept coming back. All this while my husband and kids kept complaining as to why I was going there so often.

Then 2019, when the hurricane came around that time my we got a call that there was a major issue at our work in India where a worker had caused problems and we were all pulled into legal issues along with huge financial losses. It was karvachauth day and I told my husband to come to mandir with me. He came reluctantly and sat behind and for a fleeting moment I saw his eyes glisten. After a while when I looked behind I didn’t see him. Turns out his lawyer called him that moment and he stepped out to take a call. My uncle said sorry I am at a place I have music in background. The lawyer responded saying I don’t know where you are but it is truly magical, you should stay there as all issues are dropped and you are in the clear! It was Guruji’s leela and instant blessing that he saved us from such a huge disaster. Post that, life’s and ups and downs are part of life but Guruji gives us strength and positivity to deal with it everyday. After that incident, all my family got connected to Guruji. Once, my daughter fell down badly and hurt her elbow but her first words were, “Jai Guruji.” She celebrated her birthday at mandir with the guru parviaar. I found her crying in a corner in the mandir one day and I asked her what was wrong. “I think I am going to fail my exam” she cried like a baby. I told her look where you are standing just pray to Guruji. Sangatji she scored 99.9% in those exams! I pray that Guruji always passes her in all life exams with such great marks!

Today Guruji has blessed us with seva and we are truly fortunate to be part of this guruparivar. Shukrana Guruji

Renu

## 16. Humey Apna Bana Lo Guruji | Piyush Kathuria

I have been connected with Guruji for more than 7 years now but who's counting right?. And I pray my connection with Guruji stays and he keeps me in his sharan forever. During my journey with Guruji, I have had many satsangs/experiences which had a huge impact on my life and made my belief in him stronger. Here I will share few out of many blessings which he has given me and I can't thank him enough for everything.

Back in 2014, I was preparing to come to the United States for my undergraduate studies. And I was getting all my health tests done before I left India. In the test results, one of the tests didn't come out well and my primary care doctor recommended that I should stay back with my family and not go. I was shattered and cried and kept asking Guruji, why me!? I'm so young and have my whole career/life ahead of me and really wanted to go out for my education. I started reading a book of Guruji and in that I read "if Guruji blesses you with two chai parshad without asking then it's his double blessings".

I went the very next time the Bade mandir opened and I was sitting in Darbar and started crying, praying and kept asking Guruji to bless me. I got my first chai parshad from the sewadar and after we were done they took our empty cups as well. After sometime while sitting in between thousands of sangat, another sewadar comes to me and taps my shoulder and says here is chai prasad for you. And I was so confused since I already had it and he didn't offer it to anyone but me. I took it and I drank it. After a few moments I realized from what I read last night about two chai parshad and I started smiling and was sure that Guruji is telling me that he has blessed me. And I was sure that I'm completely fine and I don't have to worry about it.

The very next morning, I went to get all my tests re-tested. And as I expected, all my test reports came out negative and my doctor was shocked too, but I knew it was only Guruji's blessings.

I was able to come to the United States. Of course, there were many other hurdles on my way but those as well got resolved with his blessings. From that day, my belief and faith in him has only become stronger and I thank him for everything. Shukrana to Guruji!!

Being with Guruji, my perspective towards life has also changed a lot in the last few years. I was a quite pessimistic person and if something didn't go the way I expected then I would start blaming my life or people. In recent years, I have started looking at things in a more positive way. Regardless of things not going the best or as per expectations, I am still happy and content. Thinking that this is best for me and that's why Guruji is making me go through this. He has given me the strength to handle my tough times better and things go by smoothly in a blink of an eye. I try not to ask for anything and thank him for everything he has blessed me with. He knows what and when is best for me. Finally, I would like to do another Shukrana to Guruji for blessing me with seva at Guruji's mandir. And I pray to him to please forgive my mistakes and keep giving me seva, blessings and to keep me in his sharan.

Piyush

## 17 Apni Meher kar | Renu Jain

Shukrana Guruji Aapka Har Pal, I could never imagine that a Guru would be part of my life ever as I have a strong belief in Namokar Mantra in Jainism But only almighty knows when it is time to call.

I was not a believer in Guruji that time but one night I felt a cyst in my stomach and so much pain. I don't know how or why but I started chanting Jai Guru Jai Guruji continuously for maybe an hour or so. To my surprise, I felt intense burning heat on my stomach in that area and also got scared by what was happening. I got out of bed to see a big burn mark there but no more cyst or pain. Shukrana to Guruji, only he can do miracles. Since then I got connected with Guruji.

In 2020, I went to India for a wedding and there I got sick with a throat infection. According to the doctor, I had puss in my throat with some fever. After 3 weeks of antibiotics and medication, my illness was still not cured. My whole mouth started burning and the tongue developed white creamy layers. I couldn't eat any spice, or have tea, coffee or even warm food. Because the pandemic had started in March, there were no doctors seeing any patients in person but only virtually. We tried so many doctors but no one could understand and no medicine worked. Again, one night I felt a choking feeling like something was stuck in my throat. We had no choice but go to the hospital. However, I didn't want to go to a hospital in that pandemic time. I sat in front of Guruji, praying for him to help me. He blessed me again, problem got resolved there and then, and I was hugely relieved. Thanks to Guruji, who always listens to us.

My other issues continued. I stayed feverish for 3-4 months, I got fungal infection, and my stomach got affected so badly that I couldn't digest food and started losing weight. Hair started shedding, and since I had infection in my body, white blood cells increased. August onwards, I started seeing good doctors. Various tests were done but there was no conclusion. It gave me depression and anxiety to not know what was going on. The medicines didn't work and my condition kept deteriorating. At one point, the doctor told me that I have blood cancer according to my blood reports. When I heard this, I stood still and speechless and asked Guruji please take my life but don't let that happen. Few days later, we did the whole blood work again. Guruji was with me, he showed me Om sign on my leg very clearly. I understood that nothing will happen to me. This time my reports came all negative. That's the power of Guruji Maharaj!

Finally, Guruji made us leave India in a way that only he can orchestrate. After one full year, I came back to US with my husband who didn't want to come to US after 7 years. I had prayed to Guruji to send my husband with me and he fulfilled that wish of mine as well. After I came back, we reached Edison mandir and started going regularly and eating langar prasad. And it was then that I finally started feeling better, day by day. Complete surrender and faith in Him has helped us sail through our life. Jai Guruji. Anantum Shukrana . Please have your blessings on all of us always.

Renu

## 18. Bin Boleya Sub Kich Jaanda | Meena Sodhi

Jai Guruji, Shukrana Guruji for all the blessings you have showered on me and my family . My journey with Guruji started in 2018 . We had major loss in our business, we also were fighting a law suit to save our business which went on for five years. During that period, I went to so many pundits and did all sorts of poojas. But, as was our fate, we lost everything and were left with nothing. Our house also came in foreclosure. My very good friends knew what we were going through and asked me to come to Guruji Mandir. I had heard of Guruji before but had never seen him. My friend insisted, so I said ok I will go with you. When I saw Guruji's swaroop for the first time, I wasn't impressed as I had seen many posts on Facebook and thought in India every now then there is a new Guru. But I decided to stay. My friend had also told me to sit quietly, listen to Shabads and when Chai Prasad and Langar Prasad is given, to finish it all. I followed that and to my surprise, I loved the Prasad so much that I praised it to my husband that it was like Maa ke haath ka khana. Never before in my life I had such tasty Prasad.

I don't know why, but I wanted to go to Mandir again next week I was waiting for Thursday anxiously, such was his pull. I felt very much at peace and could not stop crying every time I was there. This continued for few weeks after that I don't know how, but suddenly my depression was gone. I was always happy and felt he is around me. I didn't even know that he had left his Chola (physical body). It was much later that I came to know about it. My other friends joined me over time. They also started coming regularly with me. After few months, we wanted to bring Guruji's swaroop to our home and decided on the swaroops we liked the most while traveling in the car to the Mandir. After the satsang, we asked Batra Uncle for a swaroop without mentioning which ones we want. He came with three swaroops of Guruji in his hand. To our surprise, when he revealed them, each one of us got the swaroop we liked the most. We were shocked as to how could he know which ones we wanted. That was our experience of his chamatkar.

Few months passed my husband also started believing in Guruji. Our financial situation was becoming worse and my husband health was getting affected. One night from Guruji's Mandir I got Prasad. Earlier, Prasad was supposed to be eaten in the Mandir only, but that particular day, I don't know how, but I got Prasad to take home. When I reached home my husband said he is not feeling good. I told him to eat langar Prasad and sleep. He said he will sleep little later . Not knowing exactly what he was going through I went off to sleep as I had to go to my job next morning. My husband had a terrible pain the whole night, he was going through a heart attack and was praying to God to end his life. Somehow, he managed to find his medicine in that pain and he doesn't remember when he slept. This was Thursday night and on Sunday he told me about his condition and what all that had happened. I was shocked and yelled at him for not waking me up or calling 911. I told him that Monday you will go and see doctor and not go to work. He went to his cardiologist and was admitted immediately as he was still going through a major heart attack. Doctor was surprised as how he managed for four days and drove himself to the hospital. He had immediate surgery, my son and myself reached as soon as we heard from doctor. When doctor came to visit, he told me that his heart attack was widow

maker heart attack and was surprised as to how he survived such severe attack. This was all because of Guruji's Prasad that my husband had that night and Guruji saved him. Shukrana Guruji, anantam Shukrana.

I prayed to Guruji to show us some way to start a new business so that my husband can have an easier life. Somehow we thought that with some help we will buy a new business. I started telling my colleagues at work to look for some store, if anyone wanted to sell. After few months, a new employee joined my office in marketing. Like everyone else, I told him the same thing - to look for any store for sale. He worked for one week and after that he said he cannot do field work as he is from IT. He had come to give his resignation letter, but he decided to go to field for last time. Next day when he came, he told me that he met one very nice person who wants to sell his business as he wanted to retire. He liked the place and said it's a very good location. I told my husband about it and he agreed to meet the owner. The owner was looking for a buyer for few years but didn't sell to anyone since this business was like his baby. When he met my husband, they both clicked and finalized the deal. But, the owner wanted the all the money be paid upfront. He was quite firm and didn't want to change, this was his only condition. We had to sell our property in India, and as things work in India and with us being here, nothing was falling in place. I prayed to Guruji to show us the way, otherwise this store will go away from our hands. To my surprise, in our next meeting with the owner, he agreed to sell the store to us while giving us extra time to arrange the money. With Guruji blessings everything fell in place and we had the store. When we went to for inventory count and last paper formalities, I prayed to Guruji and wore his bracelet for the first time. To my surprise, the owner's daughter-in-law asked me if I was Guruji's devotee, noticing the bracelet. I said yes, and to my surprise she was also Guruji's devotee and her daughters were too. Our stores are very far apart and we did not know them earlier and had no common friends or family connection. Guruji made us meet his Sangat and we got our business from them. It is hard to write and explain what I went through – I had goosebumps and tears in my eyes. That is how kind our Guruji is and how he takes care of our needs.

Now we have everything and most importantly Guruji. I know he will take care of us and Shukrana to him in keeping us in his sharan. I love you Guruji and please always be with us, never leave us alone. Harpal aapka Shukrana Guruji.

Meena

## 19. Kurban Jaun Us Vela Suhani | Chandan Bisaria

Writing about Guruji's boundless grace is like putting a filter on sunlight. "Kurban Jaun Us Vela Suhani Jit Tumare Dware Aaya" – never thought that a crisis would be the beginning of my spiritual journey with Guruji.

### **GuruJi Comes to our Rescue**

In November 2014, GuruJi chose to reveal his presence in our lives in 2014 when my daughter was going through a major health setback. At that point, a day before her surgery, Guruji's picture was given to me by a close friend who had been his devotee for many years. My daughter went through a 21-hour surgery and the prognosis post-surgery was not very encouraging. Today with his grace, she is leading a normal life and taking care of her family. She still has residual issues which I am sure He will resolve in good time.

### **Potential Heart attack Averted**

Six months after my daughter's surgery, my husband experienced symptoms that were indicative of a potential heart attack. He was rushed to the hospital where after a battery of tests, a catheterization procedure was done. I panicked and prayed fervently to Guruji for assurance and hope. As my husband was being wheeled in for the procedure, my daughter and I sensed Guruji's distinct and unmistakable fragrance. To me that was a message from him that He is taking charge of the situation. Thankfully, the catheterization procedure turned out normal.

### **His Grace on my Nephew**

My nephew's wife had problems conceiving. Five years after their marriage, with his blessings, she conceived. However, she ended up having a premature baby in the sixth month. The baby came with a lot of problems. The physicians gave a grim picture including possible heart surgeries, blindness, and a clot in the brain. Through my daughter's dreams, Guruji constantly assured us that he was watching over the baby. Today, thankfully she is a very active, happy, healthy, and naughty four-year-old.

### **Blessed with GuruJi's Darshan**

In the course of next few years, my association with GuruJi's Sangat helped me to build my own faith. On July 7, 2019, I was fortunate to have GuruJi's Darshan during his birthday celebrations at the temple. Though I was hesitant to talk about it, this experience connected me further with Guruji. I realized I had reached my spiritual destination.

Shukrana Guruji, though there will always be challenges, I know your grace is truly boundless and will always be present for your Sangat.

Chandan

## 20. Joo har Ka Pyara So Sabna Ka Pyara | Soni Sachdeva

Jai Guruji. Shukrana to my Pyare Guruji Sahib ji who took me and my children in His Charan Sharan in October 2016 on Ashtami Puja Day. I never heard of Guruji before. I landed in His Darbar while searching for a temple to offer Ashtami Puja Prasad. For a long time I was thinking that I reached at Guruji's Darbar by chance. But there is no such thing as "by chance" or "coincidence" in Guruji's Darbar. It was my Guruji's special invitation for me and my family.

After my first visit, Guruji and His Darbar aura was pulling me. At that time I was going through a difficult phase of my life but I had no demands or expectations from Guruji. I did not know anything about Him or His powers. Everybody has their own purpose of going to Guruji's darbar and mine was for internal peace. Most days I would even cry listening to the Shabad Gurbani, not knowing why I was crying. Later on, I learned through Amritvela that crying during Shabad Gurbani is how Guruji cleans your soul and bad Karmas. In a matter of days, people around me started noticing the difference and started mentioning that I am a changed person. I realized that Guruji is transforming me in no time. I was feeling very positive, confident, and powerful.

As the journey proceeded I knew that Guruji was leading my life. He started giving me everything that was in my thoughts. Guruji gave me and my children countless blessings in the form of Amritvela in July 2017 through His Pyari Sangat Kirti Aunty ji from Florida. After my Amritvela journey, Guruji's blessings multiplied for me and my family. I was able to understand the meaning of Guruji's Vachans. One of Guruji's Vachan is "Mango Nahi Manno". I realized that I begged for my job from God that I was doing at that time. It was so tough to handle with my personal life and I was miserable. After I started doing Amritvela Satsangs, I got offers from 3 different jobs that Guruji blessed me with, without asking. I just prayed to Guruji to choose one for me which I can justify with my spiritual and personal life and Guruji blessed me with a very nice job which I had been wanting for a while. My financial condition and work life balance improved. I always feel like I am a millionaire with or without a bank balance.

Guruji also taught me to love and respect my parents. My complaining attitude turn into gratitude for each and every thing and I always feel happy and content with my life. After coming to Guruji, I feel life is beautiful and I should appreciate it both the ups and downs.

Guruji made me learn and understand in Amritvela, Nand Singh Maharaj Ji's Ardaas that I perform everyday with His blessings -

*"Jo Bhave So Kam Karayi  
Jo Na Bhave So Na Karayi  
Jithe Bhave Tithe Rakh Le  
Jithe Na Bhave Tithe Na Rakhi  
Jithe Vi Rakhi Apne Charna Kol Rakhi "*

Shukrana Shukrana Shukrana Guruji for everything!

Soni

## 21. ApRab Mera Satguru ban ke aaya | Seema Batta

Jaiguriji meri pyaari sangat ji and lakh lakh lakh shukrana mera pyaari Guruji. I am extremely happy and blessed to be sharing my satsang with everyone. My greatest shukrana to Ritu aunty who encouraged me for a year to get connected to Guruji. May Guruji always bless her family.

Guruji called us in October 2015 at Ritu aunty's house. As everyone knows, each of us have ups and downs in life. During that time, my family was going through a difficult phase where I was open to any avenues that could help me out in handling and overcoming the situation.

That day, in that satsang, I began to realize that He is the one who can help me. However, it took me 3 more months to eventually fully understand that.

In March 2016 my true journey began with Guruji and after walking down the chosen path, there was no looking back. When I first began going to the temple, I was asking many things in my life. I felt disappointed when I felt that my prayers were not being heard. I was constantly questioning him and felt angry if I didn't feel satisfied with the results. At some point though, I removed my expectations, began focusing on Shabd/Simran, and langar seva leading to full surrender to my Guruji. That is when my life turned and I started seeing so many blessings that Guruji showered on us. My biggest lesson is truly "mango nahi mano". As we know, he knows what is good for all of us.

After I truly felt connected, I have always felt he has held my hand and walked me on the rose petals path while protecting me from the difficult road of thorns. He gives me darshan whenever I seek and sometimes on his own. He shows and speaks to me in language only he and I understand and such is my love for him.

During my tough times, I used to believe everything was "my doing. However, he showed me that if you surrender to your Guru and have 100% faith, things will turnout in a way that is best for you. In the past five years I received many blessings for, top three have been for my health, my husband, and my children.

My three children also got connected to Guruji over time and moved towards his path of Seva, Shabad and Simran. They each felt the love of Guruji in their day to day lives and are blessed with the love of guruparivar. Today Priyanka, Surina and Anish are fully connected and have the opportunity to do seva at the temple. I am eternally grateful for that.

We all wanted my husband : Dr Batta to connect, as it felt without him being in this journey, it would be incomplete. We were thrilled when Guruji pulled him in as well! One day, he was driving and heard a voice from the inside to go to the Mandir and since then, he never looked back. He has since got countless blessings financially and otherwise, including an opportunity to do seva for the temple as a doctor.

Guruji has literally held my hand so I don't fall. In reality when I actually physically fell, I got hurt so much that I couldn't raise my arm and was in pain for over a year. Eventually with the grace

of Guruji and having langar prasad regularly, my injury healed itself without any medical attention. It was just 10% that I had to bear and he took care of the rest.

In this journey, I find myself to be very lucky to receive his grace and to top it, I had the opportunity to connect more friends and family to him. There were many friends who used to mock me for being so devoted to Guruji and today the same friends have become part of the guruparivar, such is the pull of our Guruji. I have been blessed to see miracles in my life and within the sangat to grow my love and faith for Guruji. I got the opportunity to be part of the one big family to share, and grow with abundant love from the guruparivar and for that I am forever and truly grateful. Thank you Guruji for coming in my life and blessing me with your love. I love you so much.

Seema

## 22. Prabh Dori haath tumharey | Neelam Makker

I came to know about Guruji from my friend Meenu Gupta. After hearing about her experience, I got curious and started looking online about Guruji. I don't know exactly when but slowly I got attached to Guruji. I started coming to Edison mandir in middle of 2015. I don't have words to explain the peace I feel at the temple. We look forward to the langar Prasad and chai Prasad weekly, it has kept us safe and healthy over the years.

Guruji has been very kind to our entire family. I have two daughters and they are also connected to Guruji. The biggest surprise has been my in-laws. They are people who never even prayed to anyone and now they have a mandir room dedicated for Guruji. Such is the mahima and meher of our Guruji! Shukrana Guruji for taking care of our family.

In November 2019, I got a clot in the brain and went to the hospital. I was nervous and kept chanting Jai Guruji in my mind. My face was turning onto the left side and I wasn't able to talk as I reached the hospital. With Guruji's blessing, all tests came normal and I stayed there only two days. Doctors were shocked to see the results. They could not figure out how with such real high blood pressure the clot got dissolved and everything became normal. Jai Guruji.

In another event, my car got stolen from our driveway. At same time, my daughter got a dream that her mom had an accident and somebody died and there is a big fine or year jail for one year. Before anything could happen, my car got stolen and sangatji ji such is leela of Guruji Maharaj that the person who stole the car, had a major accident! The car was deemed as total loss!! This is how Guruji takes care of anyone that comes in his sharan! We need to have full faith in his plans, surrender and do Shukrana! We are blessed to be part of the Guruparivaar here!

Neelam

## 23. Tu kahey dolae praania tujhey rakhaega sirjanhaar | Amarpreet Kaur

Guruji Reveals His Presence “Mere Sahib, Mere Sahib, Toon Main Maan Nimani. Ardaas Kari Prabh Apne Aage Sunn Sunn jeeva teri Bani.” A true Guru finds you when your soul is searching the most and that indeed was the case for this Nimani daughter of Guruji. Shukrana Guruji for bestowing this blessing upon me, to be able to share my satsang with Guru pyari saadh sangat ji.

“Bahut Janam Bichade The Madho Eh Janam Tumhare Lekhe.” Guruji knows since how many births we’ve been connected to Him. But it was in 2014 when my soul’s true journey began and Guruji revealed His presence to me. As they say, “The dots always connect backwards.” I was very young when I lost my mother. But since childhood being from a Sikh family, my foundation was strong with my father raising me under the divinity of Gurbani from Sri Guru Granth Sahib Ji. It was that same foundation that connected me to Guruji’s charan.

In February 2014, I lost my father and my entire world collapsed. It felt as though the whole reason for my existence was finished along with my connection to India. There was a huge void, which words cannot explain. With each moment I was doing my daily karma but deep down my soul would constantly yearn, “Akal Purakh WaheGuru where are you? I need you.” Whatever I’d do, wherever I’d go, I’d feel that inner voice of my soul searching for that Light. “Karan Karawan aape aap manukh kai kich naahi haath.”

Within 1 month of losing my father an opportunity came along, which I thought would keep me and my children’s connection to our motherland. It was day time, I had a meeting in Gurgaon and my driver had tried to take a shortcut and lost the way. I asked, “Bhaiya, where are you going? Please try to turn the car around, I am late.” But there were sewadaars on the main road for another religious event in the area, guiding us to keep going straight on the road that led to Bade Mandir. Unknown to me it was Guruji’s master plan at work. Without realizing, it was Guruji’s will that teeno lokon ke malik “Maha Shiv” himself had heard my soul and brought me to heaven on Earth, “Bade Mandir”. Little did I know my search had finished and my journey was only beginning. When we made the left turn towards the direction of Bade Mandir, my attention was immediately drawn to the Shivling on top and in my heart I thought, “Wow, I’ve never seen anything like this. What temple is this?” “Ghat Ghat ke Antar ki Jaanat.” Right at that moment my driver said to me, “Madam, yeh bahut hee karni vaali jaaga hai aap ek baar matha zaroor tekh lijiye.” I got out of the car and saw that the main gate to the mandir was closed. I bowed down, touched the floor to pay my respects to the holy place and yet in my heart thought if this was The Gurdwara Sahib, the doors would not have been closed.

In that exact moment, a very old man with an unforgettable angelic light and radiant smile on his face, dressed in extremely average clothes, opened the side door of the main gate. In Punjabi he told me, “Puttar bahar kyon kharee hain, andar aaja.” As we walked in, I felt as

though I entered the most divine place on Earth. The more I saw, the more I was in awe. He offered me jal prasad and we both walked in silence. Mesmerized with his divine smile, I followed the way leading to the stairs of Bade Mandir. Unable to comprehend what I was witnessing, I saw Ganesh Ji and ShivJi. My curiosity was growing. As I began to take my first step on the stairs to the main entrance of the darbar, I noticed there were red velvet curtains covering the front door into the darbar. At that moment, another uncle came out from the side of the curtain asking me, "Aapko andar kisne aane diya as the mandir is closed and the darbar sewa is going on. Kindly come back in the evening." When I told him who let me in, I turned around to show him but there was nobody there.

Uncle smiled at me as if he knew exactly what was going on as with Guruji there are no coincidences. With folded hands he told me to come in the evening when the mandir would open up but I told him I had my flight to catch later that day. That uncle then said, "Aunty you don't know where you are standing. Koi iss mandir ke saaye se bhi guzar jaaye toh Guruji unko bless kar dete hain. Don't worry, He will bring you again in His perfect timing."

Not understanding the depth of his words but deep rooted in my faith and spirituality, I prayed in my heart, bowed down to the sacred place and left. "Jithae jaaye bahae mera Satguru so thaan suhaavaa ram raajae". Right from that point my beautiful journey with our God Guruji began and I've never looked back. Life has never been more beautiful, blissful and peaceful than it has with Guruji. We can never understand His will or His ways but it is our faith that allows us to build and strengthen our eternal connection with Him. All we need to do is total surrender in His lotus feet. Guruji orchestrates every second, each moment, and every breath of our life.

We think we are in control but God is the eternal truth we spend our entire lives and births searching for. Guruji and only Guruji revealed His true self to me when I needed Him most. He came and handpicked me as I was sinking into the abyss of life. Guruji gave true essence and meaning to the life we take for granted. We make life more complicated than it needs to be but Guruji has simplified all of that. If one thing I have learnt in my direct connection with Guruji is to learn to live in His will and He paves the way for everything else. We have no more worries as Gurbani says, "Chinta chad achint raho" because, "So Satguru pyara mere naal hai". Shukrana Guruji. Jai Guruji.

Aad guray namah" (I bow to the Primal Guru)  
"Jugaad guray namah" (I bow to the Guru of the ages)  
"Satguray namah" (I bow to the True Guru)  
Saree gurdavay namah" (I bow to the Great, Divine Guru)

In Guruji's Lotus Feet

Amarpreet

## 24. Apney Sevak Kau Kabahau Na Bisaro | Rajeev Agarwal

It is my good fortune that Guruji has accepted us in His *Sharan*.

I am also extremely thankful to my cousin who introduced me to Guruji and brought me to *Bade Mandir* in November 2016. This was the first time I came to know about Guruji and I consider myself lucky that I began my journey with the *Bade Mandir*. Little did I know that my entire life would change after that. On my first visit I kept telling my sister that this place is heaven since I can smell roses fragrance everywhere. The orderly darshan, the organized *Chai Prasad* distribution, the beautiful Gurbani being played in the background and the scrumptious langar made me connect with *Maharaj* immediately.

After that experience I went back to Canada, but I had a dream whereby Guruji called me back to *Bade mandir* after 4 months. I immediately booked my ticket and landed in India in April. On that trip I was fortunate enough to visit Dugri. On the same trip I was given some seva at *Bade Mandir*. In the April heat, I was given the task of washing the outside yard along with other sevadaars. My feet never felt any heat in the April sun, and I was immersed in the blessings of Guruji.

In late 2017 I had a severe abdominal pain and was taken to emergency where the doctor diagnosed it as a possible kidney stone. I was in severe pain and all I did was that I held Guruji's locket in my fist and said "Guruji help me". Within moments the pain disappeared, and I could speak to the doctors and nurses. The nurses were amazed as to how my pain vanished and as a precautionary measure put me on Morphine drip and was sent home subsequently. I made many trips to India subsequently with firm faith, reverence and "ek takya bharosa" on Guruji

In Feb 2020 I was fortunate to visit the Edison temple. I was told by a *sevadaar* that the Sunday Satsang is starting in few minutes, and I should attend the satsang. I managed to attend most of the satsang, had *chai prasad* and went back to Canada feeling blessed. This was my last outing before COVID. I then started attending Sunday Satsangs of Edison Temple via zoom and connected to many Sevadaars of the temple. I consider myself as a *Sevak* at his *Charan*.

What Guruji has given me cannot be described in words. He is everything to me. I now realize that I have been in His *sharan* for my entire life.

Rajeev

## 25. Jiskey sir upar tu swami woh dukh kaisa paye | Rita Bhandari

I had my first introduction to Guruji on March 22<sup>nd</sup>, 2014 when I went to Guruji's Edison Mandir. I had no clue about anything to do with Guruji – who he was, his name, his philosophy, his mantra, his teachings, his commandments, etc. etc. etc. I went because I couldn't refuse the invite. I have been brought up in Arya Samaji family and then married into identical set up for almost 4 decades now. My husband and I have strongly followed only one thing all our lives – Karma – Be Kind and Help Others. Hence, we have never had any inclination towards following any deities and or Gurus. Little did we know that this invite was exactly the kind of path we have been on already. So, the connection to Guruji was just so seamless. Shukrana to Guruji for inviting us into HIS sharan.

Guruji's mehar and grace in our lives has been bountiful in many a respect – health, finance, and plenty more.

Would like to do our Shukrana to Guruji by sharing a few of my Satsangs.

In August 2016 I had to undergo Gall Bladder removal surgery. It was supposed to be same day surgery, no big deal. We were told maximum of 2-3 hours between pre-op testing, prep, actual surgery being only about 20-30 minutes. All went well with Guruji's Mehar. Though the 2-3 hours stretched into almost 9 hours. It is only with Guruji's Blessings that I was able to be in Guruji's Mandir in just 4 days to celebrate Raakhi with our dear Guruji, sit cross legged in the bhawan for almost 2 hours and get the blessings of divine langar prasad with all the proper spices and fats – a completely forbidden diet for a person who just had gall bladder removed only 4 days prior! Shukrana Guruji !!

***"Apne sevak ko kabahun na bisaarahu"***

On a Sunday morning – Feb. 12, 2017, after doing my Langar Prasad Seva at the Mandir, I was returning home to change before the start of the Satsang at 1pm. As I was driving, all I remember is that there was a big jolt and I was at a standstill and there were couple of cop cars and the cop was asking if I was OK? I was completely puzzled and asked what did I do wrong. The cop was rather concerned about my welfare. There was a tow truck a little bit ahead of me on my left (the driver's side). It was carrying a car on it and suddenly the pulley holding the car broke loose and the car ran down slamming into my car – but of course the driver's side – me! With Guruji's mehar, there was not a scratch on me. Seva ka meva instantaneously! Only Guruji could have kept me absolutely unharmed. Words cannot describe the scene that I was witnessing. With Guruji's immense blessings, I was back in the darbar in 2 hours with my husband and our daughter and had the good fortune of sharing my very first Satsang with the Sangat, my Guru Pariwar.

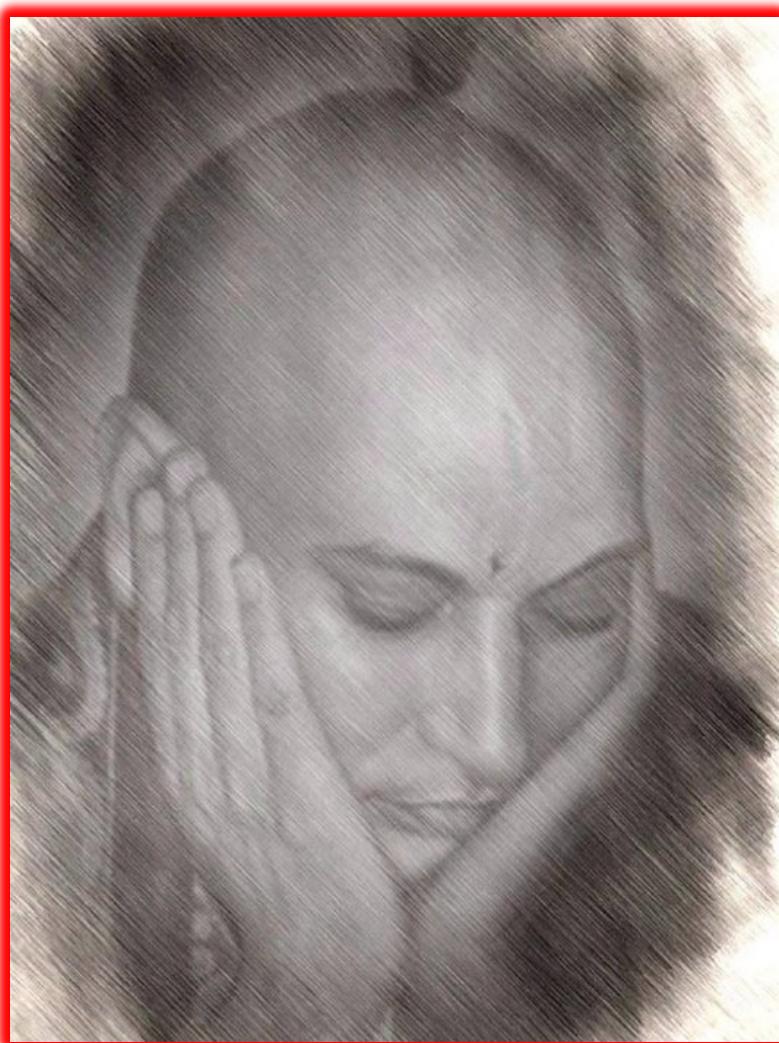

I still remain utterly mesmerized by the simplicity of our beloved Guruji. I feel so illuminated after having riden of any superstitions from my life, the little stuff of life that can bog us down for no reason – the crossing of black cat is totally immaterial now. Sneezing before starting anything auspicious doesn't raise any antennae anymore! Various stones that adorn fingers are for sheer

pleasure and my love for jewelry and not because they mean anything. I now don't feel scared to wash my hair or clothes on a Thursday. Our "Practical Guruji" has most definitely simplified our lives. So, what can we offer in return to such a Guru – TOTAL SURRENDER! VISHWAAS!! FAITH!!! Because this is the KEY to your personal connection to him – the one and only thing required. My dear Sangatji, what is holding you back? Just connect to HIM. HE is the one each one of us can truly trust to be there for us, if we BELIEVE. Are you still carrying that heavy hat of ego on your head? Why? It's the heaviest load to carry. Let it only be where Guruji told us to leave – ground it with your shoes. And then watch how smoothly the life will sail through any storms.

What Guruji has blessed me and my family with, words cannot describe it all. The Blessings of Seva and Sangat are the biggest gifts I have amassed in the past 7 years. And for that I shall remain eternally grateful, to the one and only GURUJI !

***"Mehran Waliyan, Sayeena, Rakkhi Charna de Kol"***

Rita

### About the book...

We share our blessings here in our journeys with **Guruji** that are born of faith, trust and love for him. Our hope is they touch your hearts and inspire you as they have done to us. We are grateful to Guruji for giving us this opportunity to share and pray that everyone reading this receives blessings in abundance.
